Enabling two-step verification is optional.

With this feature enabled, you will receive an email and/or text message to complete login. This provides an extra layer of security and helps prevent unauthorized access to your account.

To enable, click the checkbox. Enter your mobile number if desired. Click "Save".

If you do not wish to enable two-step verification, simply click "Save" or "Cancel" to exit the screen.

Keep your account safe with an extra layer of security.

If enabled, Two-step Verification will require you to enter a security code sent by email or text message whenever you log in.
